### **TECHNICAL GOALS: -**

We create software (Website, Mobile application) to solve social & business problems

**Services: -** Webpage and mobile development, creating innovative machines (Plastic recycling)

=====

### **Detailed Description: -**

Social and environmental activities include plantation drive, home gardening, lake construction, and research activities.

To promote plantation, Manvaasam organized various plantation drives, under this program, shady plants such as Neem, Ashoka, and Mango have been planted in Kothur, Thirupattur district. These plants have been planted in village compounds, roadside, and schools with the help of localities, performing nourishing activities such as fertilizing and watering the plants, etc.... All the data and images of the planted saplings separately are stored in a database and the plants have been monitored regularly. A positive effect of the plantation program of the organization has been observed among the localities. They are impressed by the program and now they are promoting plantations.

Manvaasam provides all types of plants, seed balls, grow bags, coco peat, fertilizers, Rainwater harvesting setup, paper/cloth bags, Incubator for eggs and gardening kits at a very minimum cost. In-home gardening,

we provide a gardening kit at a budget-friendly price and that kit includes grow bags, seeds, coco peat, and natural fertilizer. Manvaasam also provides the gardening and rain water harvesting setup all over Tamil Nadu at a reasonable price.

Manvaasam's project Groot, which converts non-arable land into agricultural land. Construction of lakes and ponds also takes place under this project, Groot. Those ponds were used for irrigation and rearing cattle among the villagers. All the villagers appreciated the plantation drive and project Groot.

Manvaasam is always engaged in conducting various awareness programs for students, such as the Cyber survey and Covid awareness program. Manvaasam's cyber survey was a free online webinar to students. In which a professional of the cyber security field about the cyber attacks of the digital world and also gave the solution for it. This created a huge impact on the students.

Manvaasam's covid awareness was really useful for the society. The speakers of that event were a doctor and a covid recovery patient, they spoke all about covid prevention and recovery measures, also they both answered all the queries of the participants.

Manvaasam also provides various types of training courses to students. at a very minimum cost. These trainings are conducted by working professionals to the students. These practical training sessions pave the way for the students to understand their concepts in an effective manner. Team Manvaasam is also engaged in various technical activities like Web development and App development.

Manvaasam is dedicated to the development of farming, environmental protection and environmental improvements which will strengthen sustainable future and lead towards social and economic improvements

of the social communities at national level. In order to achieve this MANVAASAM is committed to work in different range of projects Manvaasam is trying to change and develop our society in a step by step process.

**“You never change things by fighting the existing reality, to change something, build a new model that makes the existing model obsolete”**

Thanks & regards,  
Manvaasam team.
